**ASSAL CORPORATION® ANNOUNCES THAT MOUNTAIN MIKES PIZZA® HAS CHOSEN INTOUCHPOS® AS THEIR NEW RESTAURANT POINT OF SALE/MANAGEMENT SYSTEM.**

November 29, 2011, US, Walnut Creek, CA (Market Wire)

InTouchPOS®, a leader in Restaurant Point of Sale Technology has been selected by Mountain Mikes Pizza to provide their restaurants with InTouchPOS® Advanced Restaurant Management System with InTouchPOS® integrated Online Ordering. They have also chosen the InTouchOffice® Corporate Enterprise System, which will assist in the oversight of their restaurants and provide real time information to help them grow.

The first Mountain Mike's Pizza restaurant was established in 1978 in Palo Alto, California. What started as a single pizza restaurant with a casual, family-oriented atmosphere, Mountain Mike's Pizza has grown into a leading pizza brand with more than 130 restaurants in California, Oregon, Nevada and Utah. Mountain Mike's is designed to accommodate those seeking a family-oriented casual dining environment along with delivery and carryout.

**InTouchPOS®** comes complete and ready to use. InTouchPOS® features the latest in touch technology. The InTouchPOS® System can offer product scanning, gift cards, client/vendor management, comprehensive reporting, superior inventory tracking and receiving, and barcode labeling technology all built into the InTouchPOS® System. It also handles, advanced marketing via texts, email, promos, and seamless Quickbooks integration with the help of our Partner [www.AaaTeX.com](http://www.AaaTeX.com). All of this -- and A-rated customer support.

**InTouchPOS® Online Ordering** is multi-layered, and a secure remote ordering solution for any restaurant owner who wishes to cut costs and increase revenue. InTouchPOS® allows restaurant customers to place orders from the restaurant's menu via the Internet, with the order transmitted to the restaurant in real time through the InTouchPOS® System.

**InTouchOffice®** will allow Mountain Mike's to automatically download and consolidate all of the data that their restaurants collect on a daily/weekly/monthly/quarterly and/or yearly basis which will enable them to create comparison reports. Remotely managing their restaurants from their corporate location will save us time and money, because driving around from store to store collecting sales information can be frustrating, and costly. Having this information available at the touch of a button is very convenient.

InTouchPOS® is a leading Point of Sale/Management System for the Restaurant/Hospitality industry. Since 1988 they have been providing a complete solution, including Software, Hardware, System Setup and Configuration, Installation, On-Site Training, and 24/7/365 Hardware and Software Support Services. Their products and services are flexible and can be customized to meet the specific needs of a location. InTouchPOS® works in any type of operation from Quick Service and Delivery to Nightclub and Fine Dining.
